

## Task 1

1. Mobile devices are better than internet cafes.
2. Network platforms are distracting and counter productive.
3. State A is better than State B
4. The reporters chooses big news instead of reporting basic events
5. People should do more recycling to benefit recycling plants.

## Task 2

2.1 Hasty generalization, Reason: There is only 2 data sources and that is insufficient for a conclusion.

2.2 Weak Analogy, Reason: These two objects have something but they are actually not the same at all.

2.3 Straw man, Reason: The writer accuses them in believing what they might have not actually believe in.

2.4 Missing the point, Reason: Yoda assumes that everything negative is related to dark side and presumes that all emotions other that break the jedi code are negative.

2.5 Equivocation, Reason: The steal for baseball and steal in crimes has different context which changes the meaning of this statement

2.6 Slippery slope, Reason: The middle guy is making a huge fuss from just a sentence and making it snowball into something bigger.

2.7 Appeal to people, Reason: His speech is used to appeal to people by making his speech sound patriotic and get voters on his side.

2.8 False cause(Oversimplified), Reason: The lockdown could eventually be better and the infection rate can be decreased if given enough time

2.9 Suppressed evidence, Reason: Some people that are married may not be happy due to problems from internally or externally

2.10 Appeal to people (Indirect Approach), Reason: This statement “ The doctors’ choice is America’s choice ” use doctors to make it look like this brand is more safer because people mostly trust doctors due to their knowledge of the human body and health.
